

Avant
Grup

*Commitment to
Sustainable
Mobility*

The company

Who are we?

Avant Grup was founded in Barcelona in 2002 from the merge of the companies Canals and Bardet, two family-owned enterprises with more than 70 years of experience in passenger services.

Avant Grup has become an integral logistic platform that was created in order to handle the increasing international demand from Barcelona towards the rest of the world.

The new proposal includes an advanced computer system that allows not only making contracts but also the self-management of your own services online. A modern fleet equipped with the most advanced security system and comforts, driven by professional experts and with more than 180 vehicles in different locations to offer quick and efficient solutions to any congress and events needs, international tours or transfers.

Your Global Partner for Mobility Solutions.

Specializations, Professionalism and Market Knowledge

Avant Grup is positioned in the market as the random transport company with the best service and customer care.

CONTINUOUS IMPROVEMENT

We are focused on exceeding our client's expectations. In Avant Grup, we not only work with an integral system process of management to continuously improve but also with Quality ISO Certification.

INNOVATION

New technologies as a working tool and our own computer department that develops our own software programs and that constantly brings detailed information and the possibility to be quicker in our reaction with services.

ADVANCED SECURITY

We understand that there are issues that need to be taken seriously and we go ahead with security regulations, for our peace of mind and more importantly for our customers. We equip our vehicles with the most advanced security systems and comfort.

Specialization, Professionalism and Market Knowledge

Respect for the environment

Avant Grup is fully committed with a quality service provided to its clients and zero emission free strategies.

We support the rational use of resources, the improvement of energy efficiency and the generation of sustainable economic activity.

We collaborate with companies and institutions in order to implement a sustainable collective transport of CO2 emissions.

All new vehicles are equipped with Euro 6 engines in accordance with European regulations and that we have already incorporated since 2014.

Also our corporate headquarters are in a sustainable building, where the external luminosity causes a significant energy saving.

All this gives enough confidence for tour operators and congress organizers whose purpose is sustainability, continue to hire us.

Biosphere for transport is a certification of tourism sustainability designed for entities dedicated to the provision of services related to the transport of tourists.

This certification guarantees that the certified entity carries out new non-aggressive tourism models, satisfying the current needs of their customers and users without compromising future generations.

Services Planning

Our fleet

Our Fleet Avant Vip Cars

Luxury for exclusive services

Our area specialized on luxury transfers. Highly professional staff, drivers and best technology for our clients.

A wide and modern vehicle fleet constantly updated. High quality vehicles and minivans up to 8 seats for leisure and business disposal as much as receptive touring groups.

Tour routes, company's staff commuting journeys, conventions, business meetings. Total safety and discretion.

Our Fleet Types of bus

STANDARD LUXE

Avant Grup's fleet in Barcelona is under a continuous renovation and is equipped with the highest comfort and safety standards. Our vehicles average age is under 4 years and our fleet has all the desired details for our customers to enjoy a premium quality service either in a transfer, a day trip, a circuit, celebrations, school transport, etc.

The biggest bus fleet with an homogeneous aesthetics in Barcelona gives the best corporative image for congresses planning, cruise stops, or big events.

OMNIBUS

Avant Grup's minibus fleet, whose capacity vary from 9 to 35 seats, is made of the last generation vehicles fitted with the most complete and modern safety and comfort equipment. Our minibuses give our customers the agility of a smaller size vehicle combined with the highest comfort and safety features of the high-end coaches.

Because quality it is not a matter of size.

ACCESSIBLE TRANSPORTATION VEHICLES

Avant Grup provides our customer with accessible transportation vehicles. Our company has the essential commitment of offering everyone the possibility to enjoy a quality service that will guarantee the best comfort and safety conditions.

In our fleet we have a wide range of buses, minibuses, luxury vans and vehicles fitted with accessible transportation features. Because we have the only goal of offering the best service to everybody.

Our Fleet New vehicles

Luxurious but contemporary at the same time, all about this vehicle defines it as a grand tourism coach.

The subtle curve of the windows and the clean styling lines of the bodywork contribute to the fluidity and roundness that is Magelys. Luxurious but contemporary at the same time, everything about this vehicle defines it as a grand tourism coach.

Magelys has between 30 and 45% more glass than other coaches. The field of vision is increased by more than a third on Magelys board, and by two thirds on the version with additional windows in the roof. Therefore, the passenger just needs to relax and enjoy the panoramic view inside this glass bubble.

Our Fleet New vehicles

The new Mercedes Tourism offers our passengers a high level of comfort mile after mile.

Responsibility is a serious issue. That is why Mercedes-Benz pursues the vision of accident-free driving. The Mercedes-Benz integral safety concept contributes substantially to achieving this aim. By systematically implementing its safety philosophy, this concept covers all stages of vehicle safety: from handling safety through safety in hazardous situations and protection in the event of an accident to minimizing the consequences.

Thanks to leading-edge BlueTec® diesel technology based on SCR (Selective Catalytic Reduction), nitrogen oxide emissions have been reduced by up to 30% while particulate emissions have been cut by up to 80%, compared to Euro 3 engines.

The new Mago2 offers space and comfort for 28 people in spacious reclining leather seats. There are many facilities for passengers inside the vehicle, like DVD, coffee tables and bar furniture to enjoy the journey. The leather upholstery, the high quality finishing touches and the attention towards every interior and exterior detail, turns this vehicle into a benchmark as a VIP Minibus.

The Mago2 has recently been awarded with the Best Spanish Minibus of 2013 prize.

Our Fleet New vehicles

NEOPLAN

The new Tourliner is already impressive from the first glance. It is the new member of the Neoplan family and offers an exceptional level of comfort in travel, as well as a high efficiency in comfort and safety.

This model has been created with an elegant avant-garde design, high quality materials and a new concept of particularly harmonious lighting. From the first moment the vehicle is accessed, the feeling of well-being is impressive.

The Tourliner also stands out for its successful combination of dynamics and design, equipped with sophisticated technology and a high-performance vehicle that achieves a remarkable economy by consuming 10% less fuel than other models. The maintenance and repair costs have also been reduced in this model.

NEOPLAN Tourliner

Technology and comfort at the highest level.

Our Fleet New vehicles

MAN Lion's Coach model

It's even more confident new look exudes power and efficiency, and it is impossible to miss its technological enhancements.

The optimised driveline and innovative assistance systems guarantee you enhanced engine performance, even though fuel consumption is reduced.

Featuring a brand-new design inside and out, the new Lion's Coach adds to its stylish and dynamic look.

The **MAN Lion's Coach** impresses with its self-confident appearance, which radiates enormous power and safety. The successful and consistent blend of cosy ambience and passenger comfort is apparent into the interior. The new, large glass skylights flood the interior with extra light, adding an extra dimension of brightness. At the same time, the high UV filter provides protection against too much sunlight. The seats are equipped with everything that the modern passenger needs for the commodity.

Safety and Comfort

Enjoy the comfort, safety and elegance of the most modern coach fleet in Barcelona. All of our buses, minibuses and luxury cars with driver have been carefully selected among the most important manufacturers, such as MERCEDES, VOLVO, or IRISBUS.

Different sizes and innovative interior and exterior designs, ensure a comfortable and safe trip to our customers. With a fleet which is constantly renewed, the average age of our vehicles is under four years, we meet all the transport needs.

We fit the most advanced and efficient safety and control systems in our coach fleet, and at the same time we ensure the highest quality and comfort standards. High-end buses fitted with Wi-Fi, leather seats, toilet, panoramic roof, accessible transportation, etc.

In congresses organization, big events and cruise stops, the uniformity in our fleet grants the best image and comfort to our clients.

More than 180 units, from the most elegant vehicles and luxury vans with driver to a functional 12-seat minibus throughout our most sophisticated 70-seat proposal.

Enjoy, by previous booking, our MAGELYS vehicles fitted with panoramic roof.
